Date.....

Dear

Re: Your scheduled zoledronate (Aclasta) infusion

Date:

Time:

Place: Eastmed Doctors

This letter is to confirm your appointment as above. You should set aside 1 hour for your assessment and subsequent infusion.

Find enclosed:

- a) an information sheet about zoledronate.
- b) a prescription for you to obtain and take 2 tablets (all at once) of calciferol (ignore if already on calciferol = Vit D, or Fosamax Plus).
- c) a labtests form for you to obtain a blood test for your kidney function and calcium levels (the laboratory service addresses are on the back).

On the morning of your visit:

- Do not take anti-inflammatories (e.g., diclofenac, ibuprofen, Arcoxia, Celebrex, etc.).
- Have 2 glasses of fluids (coffee, tea, water etc).

Yours sincerely,

Eastmed Doctors.
